to me

"Yes the last truck load of mixed paper that I sold was for 4 cents a ton the whole truckload was for 49 cents which we lost about 2 thousand dollars on that transaction we cannot afford to subsidize recycling at that rate if you have answers to our problems then we are willing to listen it all comes down to money we are not receiving any tax money or subsidies other than 50 percent of the egrt which goes towards paying off loans at the landfill"
