Re: Formal Bid No 2304, G-80 Well Pod-8 and Pod-13 Drilling and Testing, Contractor Withdrawal

Dear Mr. Stewart,

Your request to withdraw your bid submitted for the referenced project was received on March 13, 2023. As discussed between you and our project engineer regarding significant differences between your bid and other bid proposals received, honest omissions of costly and important items would understandably leave your company at a financial disadvantage.

At this time, it is the City of Gallup's determination there is sufficient reason to accept and therefore consents to your request; your contractor's bid as submitted will be officially withdrawn. In addition, your bid bond will be returned and no penalties will be assessed.

Sincerely,

Frances Rodriguez
