## City of Gallup Electric Contracting with Osmose Utilities, Inc. For Power Pole Inspection and Testing

October 2020

---

As part of City of Gallup Electric's *"Power Pole Inspection Program"*, crews from Osmose Utilities, Inc.—a service partner of City of Gallup Electric Department—will conduct inspections, and testing on thousands of power poles across City of Gallup Electric Service Area operating between the months of October 2020 – March 2021. This routine maintenance work is required so the City can assess the strength of the power pole(s) to ensure continued safety and electric service reliability. In some cases, treatment may be necessary to extend the life of a pole.

Osmose Utilities, Inc. technicians are under contract with the City and authorized to perform pole inspection and treatment services. All Osmose technicians will carry identification and this City letter of authorization. When performing pole inspections, they will drive service vehicles with the Osmose logo on the vehicle doors. For more information about Osmose, please visit [osmoseutilities.com](http://osmoseutilities.com).

As the coronavirus affect our region and especially the winter season approaches, we are working to ensure our customers' needs are met while doing our part to help mitigate this serious issue. All technicians will be maintaining social distancing in the field; we encourage our customers to do the same when engaging with our field crews. Thank you for understanding that the safety of our employees and customers is and always will be our top priority.

Thank you for your patience and understanding during this routine maintenance work. It is our goal to complete the work as quickly and efficiently as possible, while minimizing disruptions to your neighborhood. If you have questions or concerns, please contact 505-863-1289.
